Education

Bsc Mechanical Engineering

Ben Gurion University, Be'er Sheva, Israel

2020-2025

Year Of 2025

Experience

Head of Path-Planning Team

BGR Formula 1 Student Team

Planning and implementing path-finding algorithms into an MPC controller using the Dynamic Bicycle Model.

2023-PRESENT

SpaceLab Mentor

Ramon Foundation, Horizon Space, Israel's Space Community

Inspiring high-school students about space through project-based learning.

2022-2024

Combatant, Meitar Unit, IDF

Full service operating Tamuz missiles in a once classified unit. [More Info](#)

2014-2017

Internship, SCD - Semiconductor Devices

- Wafer characterization
- Clean room duties
- Administrative work

2013-2014

Volunteer Work

SpaceLL Educator

Taught children and teenagers about space exploration, and aimed to inspire them to pursue careers in STEM fields.

2018-2019

Relevant Courses

- AI For Develoports - The Institute (Langchain, LLM, N8N)
- Microsoft AI & ML Engineering @ [Coursera](#)
- TensorFlow: Advanced Techniques

2025

2025

2025

Skills & Interests

Programming

Python, Matlab, C, C++

AI

Supervised & Unsupervised NN, Image Processing, Regression and Classification algorithms.

Engineering Tools

Control Theory (LQR, Kalman filter), Solidworks, Microcontrollers (Arduino, ESP32)

Other Interests

Aerospace Engineering, Biological Modeling, Neuroscience
